

FL1

Stop 1: Look to your left as you enter the building and see the kiosk with transportation options and bus/shuttle schedules to and from the SEC to Harvard Square. Stop and read SEAS' Mission Statement Wall to understand what the school is all about.

Stop 2: Welcome to the REEF which stands for Reimagining Experiential Education and Fabrication. Come meet the REEF's staff, who provide an experiential approach to knowledge at the intersection of Art, Science, and Culture. Harvard community members are welcome to work on projects such as passion, self-defined or class initiated within the REEF maker space. All Harvard community members are welcome to explore and learn different fabrication techniques to skill build or for project specific learning.
