Course Term

Year

Date Submitted

## Instructions:

1. Answer the questions below. For both, you may attach additional pages if necessary.
2. Obtain the approval of your Research Advisor, as indicated by a signature below.
3. Return the completed form to the Academic Operations Administrator in the Office of Master's and Professional Programs (SEC 1.312-12) or via email ([mastersprograms@seas.harvard.edu](mailto:mastersprograms@seas.harvard.edu)).
4. Request permission to enroll in AC 299r in my.harvard. (Permission will be granted after your form has been processed, usually 1-2 business days.)

Be sure to complete the above steps with enough time for your enrollment request to be approved, and for you to return to my.harvard to complete the enrollment process, **by the Course Registration deadline** for the relevant term.

It is suggested that the student and research advisor meet weekly or bi-weekly to discuss progress. Note that AC 299r is a letter-graded course.

## TOPICS TO BE COVERED IN THE COURSE

Please provide an outline of the goals of the independent study and the major themes.

## COURSE MATERIALS AND/OR DELIVERABLES

List of texts, reading materials, and/or research articles that will be read or description of experiments or other work that will be performed.
